

Online and mobile dental tools help you get the whole picture

It's easy to *get more* out of your dental plan

You want to make good dental care decisions. *Smart!*
Your plan has free online dental tools to help you do that.

More convenience

So, where do you start? How about with your dental health habits and the **Dental Health Assessment tool**.

✔ Get your dental health score

Just answer a few online questions about your habits like brushing and flossing and how often you see the dentist. After you do, you'll get an easy-to-follow traffic light scoring report so you know where you stand and what to do about it.

Why? Dental health problems like gum disease are common and can lead to more serious problems, like losing a tooth. Knowing your score helps you understand your dental health and your risk of getting tooth decay, gum disease and mouth cancers. You can even take your report to your next dental appointment.
